### 93952 RE-USABLE FACE MASK COTTON MADE IN EUROPE

Double layer re-usable face mask with filter insert for even more protection. Made in Europe from OEKO-TEX® certified cotton. The mask can be washed by machine at 60 degrees to assure it is clean and can be re-used. Be aware: this is not a medical face mask or a PPE. It does not contain any filter. It is designed only for personal use. Wash before use. Size: 200x160mm.

### 93953 RE-USABLE FACE MASK MADE IN EUROPE

European made face mask. It has two layers of breathable OEKO-TEX® certified cotton and thanks to the elastane used, it fits comfortably around the face. The design gives the face mask a stylish look while still covering the nose and mouth. It can be washed by machine at 60 degrees. Be aware: this is not a medical face mask or a PPE. It does not contain any filter. It is designed only for personal use. Wash before use. Size: 160x120mm.

### 93954 RE-USABLE FACE MASK COTTON 3-LAYER MADE IN EUROPE

Triple layer OEKO-TEX® certified cotton face mask with insert for a filter to give even more protection. This European made mask comes with adjustable straps to make it fit perfectly. Thanks to a metal clip, it can be positioned tightly around the nose for additional comfort. The re-usable mask is machine washable at 60 degrees. Be aware: this is not a medical face mask or a PPE. It does not contain any filter. It is designed only for personal use. Wash before use. Size: 245x145mm.

### 93955 RE-USABLE FACE MASK MED COTTON 3-LAYER MADE IN EUROPE

Triple layer OEKO-TEX® certified medical cotton face mask. Thanks to the high quality cotton this mask can be washed at 90 degrees. This mask has space for a filter to assure additional protection. This European made mask comes with adjustable straps to make it fit perfectly. Thanks to a metal clip, it can be positioned tightly around the nasal bridge for additional comfort. Be aware: this is not a medical face mask or a PPE. It does not contain any filter. It is designed only for personal use. Wash before use. When printed, washable at 60 degrees. Size: 245x145mm.

### 91333 RE-USABLE 3-LAYER FACE MASK ALL-OVER PRINT

Given the current situation, wearing a mask isn't just recommended but something we should all consider as we take every measure to protect ourselves and others. By wearing a face mask, you help to protect people around you. This 3-layer mask can be made to order with a full colour sublimation print over the entire front side. The functional mask is made of soft and comfortable polyester, a non-woven layer in the middle and cotton on the inside. It is machine washable at 40 degrees with regular detergent. Size: 165x115mm.

### 93961 RE-USABLE FACE MASK SUBLI ALL-OVER MADE IN EUROPE

### 91326 MULTIFUNCTIONAL SCARF CUSTOM-MADE

Wear this multifunctional scarf as a face mask to protect yourself and people around you, wear it as a bandana or simply as a hat. The choice is yours. This multifunctional scarf can be printed all over with sublimation. Printing of the back side is optional. The basic material colour is white. Be aware: this is not a medical face mask or a PPE. It does not contain any filter. It is designed only for personal use. Wash before use. Size: 245x500mm.

### 92704 MASK LENGTH EXTENDER

Mask length extender strap which allows face masks to be worn without having them attached to the ears. The silicone strap has small hooks where the mask's elastic straps can be attached to. This relieves any pain or discomfort because there is not direct contact with the ears. Size: 195x16x2mm.

#### **92705 FACE SHIELD**

Your health and safety is paramount, as well as that of those around you. These face shield masks will keep your face protected from potential hazards like fluids, sprays, dust and dirt. It fits over glasses, gives you a clear sight with full peripheral vision, is light weighted and comfortable with a foam headband. Made of PET. The shield is only for coverage and not impact resistant. EN166 certified. Size: 320x240mm.

#### **93407 SAFETY GOGGLES**

Lightweight safety goggles that provide medium impact eye protection. Suitable for over-spectacle protection and provide full and wide brow coverage for overhead protection. Can be worn over some prescription spectacles. EN166 certified. Size: 160x145x60mm.

### 92700 HANDS-FREE DOOR OPENER

Door handles are the most germ-infested objects in public places. With this hands-free door handle you do not have to open doors with the hands anymore. Open doors with covered arms instead of bare hands to avoid further passing on bacteria and viruses. Size: 117x75x75mm.

# ANTIBACTERIAL PENS, THE ONLY ONE WITH ZINC IONS

Pens can be major culprits in spreading bacteria. Antibacterial pens prevent the spreading of bacteria from hand to hand thanks to the special antibacterial additive zinc ions that is used in the pens. They are the promotional pens for companies in health care but also very useful for busy places like schools, restaurants and public institutions.

The antibacterial pens features:

- Meets the demanding standards of ISO 22196;
- Is made of high quality ABS with an antibacterial additive that guarantees 99% protection against bacteria.
- Gives permanent 24/7 protection because the antibacterial additive is added into the plastic.

## 80913 IPROTECT ANTIBACTERIAL PEN

Pens are one of the worst culprits for spreading germs. The iProtect pen is created with zinc ions which creates a hostile environment for bacteria thus prevents spreading from hand to hand. It's the promotional pen for companies in the medical and paramedical industry, and it's also highly suitable for schools, public places, hospitals and bars. Certified by ISO 22196 norm. Size: Ø10x135mm.

## 87760 BALL PEN CLICK-SHADOW ANTI-BACTERIAL

Anti-bacterial pen made of ABS with a solid clip. The anti-bacterial treatment prevents bacteria from colonizing the pen. Certified by ISO 22196 norm. Size: Ø12x143mm.

## 80425 BALL PEN HAWAII ANTI-BACTERIAL

ABS pen with anti-bacterial barrel and a metal clip. The anti-bacterial treatment prevents bacteria from colonizing the pen. Certified by ISO 22196 norm. Size: Ø13x140mm.
